

# Spring Phosphorus 2021 Sample Collection and Turn-in Schedule

Volunteers must sample on a date of their choosing, when safe, within 2 weeks of ice-out. The CLMP's goal is for the sample to reflect the spring turn-over, which occurs right after ice-out. After sampling, freeze the sample.

**Due to complications with COVID-19, we are still finalizing the turn-in locations and the spring turn-in date. Please keep your samples frozen and we will notify you when the locations and dates have been determined.**

COUNTY	TURN-IN ADDRESS	SAMPLING DATES	TURN-IN DATE
ALL COUNTIES	To Be Determined	Within 2 weeks of ice-out, when conditions are safe	To Be Determined

COUNTY	TURN-IN ADDRESS <i>(EGLE unless noted otherwise)</i>
