

2022 Data Report for

Edey Lake, Dickinson County

The CLMP is brought to you by:

Edey Lake, Dickinson County 2022 Exotic Aquatic Plant Watch Results

The Exotic Aquatic Plant Watch was conducted on Edey Lake in 2022.

This survey involves sampling at multiple locations around the lake to detect new invaders, and document the extent of known invaders. While notes on other plant species may be recorded during the survey, the effort focuses on five highly invasive species: Eurasian watermilfoil (*Myriophyllum spicatum*), starry stonewort (*Nitellopsis obtusa*), curly-leaf pondweed (*Potamogeton crispus*), European Frogbit (*Hydrocharis morsus-ranae*), and Hydrilla (*Hydrilla verticillata*).

The table below summarizes the results of the 2022 Exotic Aquatic Plant Watch on Edey Lake.

Edey Lake, Dickinson County		
2022 Exotic Aquatic Plant Watch Results		
Survey Date(s): August 30		
<u>Species</u>	<u>Status</u>	<u>Comments</u>
Eurasian watermilfoil	not found	No invasive plants reported from 11 sites surveyed. No photos submitted for confirmation.
Starry stonewort	not found	
Curly-leaf pondweed	not found	
European Frogbit	not found	
Hydrilla	not found	

Visit the MiCorps Data Exchange (<https://micorps.net>) or contact the lead volunteer on your lake for more details on the survey, including sampling locations, maps, and abundance information, and for information on past surveys.
